

I am

I'm trying to

But

Because

Which makes me feel

Retailer

sell the products
to the customer

sometimes I could
not provide the
requested stock

of the issue of
out of stock

Worried

Customer

search for
some products

I cannot view the
requested product
in the application

the application doesn't
work properly as
expected due to bugs

Frustrated

Manufacturer

to make the
products available
to the customer

I'm not able to
continue
production

of the unavailability
of raw materials
and resources

Stressed
